SURFACE-MOUNT RIB & DINGHY BOATS

OVERVIEW

The C3 compasses are the smallest compasses produced by Autonautic. They are a popular choice for small craft such as RIB's, dinghies and traditional built sailing skiffs. The popularity of this compass is in part due to the surface mounting - no unsightly aperture needs cutting, the only drilling necessary is 3 small holes for the screw fixings.

The compass has a highly visible 65mm card - the card is spherical so readable from a wide range of viewing angles. The card is well damped to cope with harsh and demanding conditions encountered on RIB installations.

FEATURES

65mm conical card

5° graduation

1 lubber line

12 / 24V

5 years warranty

APPROVALS

ISO 25862:2019
